✨ Features

- **Fixed Navigation Header** - Smooth, always-accessible navigation with hover effects
- **Hero Banner** - Eye-catching hero section with overlay and centered content
- **Category Browsing** - Interactive category cards with icons (Nature, Architecture, Portraits, Animals, Travel, Food)
- **Photo Gallery** - Grid-based gallery layout with beautiful hover overlays
- **About Section** - Company information with statistics display
- **Contact Section** - Clean contact information cards
- **Footer** - Comprehensive footer with quick links, categories, and social media buttons
- **Pure CSS** - No JavaScript required, lightweight and fast
- **Hover Effects** - Smooth transitions and color changes on interactive elements

🛠️ Technologies Used

- **HTML5** - Semantic markup structure
- **CSS3** - Modern styling with Flexbox
- **Google Fonts** - Poppins font family
- **Unsplash** - High-quality stock images

🗁 Project Structure

```
PhotoVerse Image Gallery/
│
├── index.html      # Main HTML file with page structure
├── styles.css      # Complete CSS styling
└── README.md       # Project documentation
```

🎨 Color Palette

Color	Hex Code	Usage
Primary Red	#e11d48	Logo, accents, hover
Dark Gray	#1f2937	Footer, headings

Color	Hex Code	Usage
Medium Gray	#4b5563	Navigation text
Light Gray	#6b7280	Body text, subtitles
Background	#fafafa	Section backgrounds
White	#ffffff	Cards, main background

🚀 Getting Started

1. **Clone the repository**

```
git clone https://github.com/your-username/photoverse-gallery.git
```

2. **Navigate to project folder**

```
cd photoverse-gallery
```

3. **Open in browser**

   - Simply open `index.html` in your preferred web browser
   - Or use a live server extension in VS Code

📷 Sections Overview

1. **Header** - Fixed navigation with logo and menu links
2. **Hero Banner** - Full-width banner with overlay text
3. **Categories** - 6 browsable photo categories with icons
4. **Gallery** - 12 curated photos in a 4-row grid layout
5. **About** - Company story with photographer stats
6. **Contact** - Email, location, and phone information
7. **Footer** - Brand info, quick links, and social buttons

🎯 Key CSS Concepts Used

- Flexbox layouts
- CSS positioning (fixed, relative, absolute)
- Box shadows and border-radius
- Linear gradients for overlays
- Hover transitions and transforms
- Responsive container widths
